

Transparency Matters...

There are only 3 countries that manufacture **CoQ10** raw material:

- USA (only Kaneka Q10®) Healthy Origins® buys exclusively from Kaneka USA.
- Japan (only Kaneka Q10®)
- China (most USA national brands buy from China)

Where does your favorite brand of CoQ10 originate?

Kaneka Q10® is the only CoQ10 in the world produced through a natural yeast fermentation process. This exclusive fermentation process yields a CoQ10 which is bio-identical to what the human body itself produces. All other manufacturers (from China) produce their CoQ10 from bacteria.

All **Healthy Origins®** CoQ10 Gels are encapsulated in the USA, using only **Kaneka Q10®** produced exclusively in Pasadena, TX, USA. While other national brands do not specify their raw material sources on the label; **Healthy Origins®** believes in the importance of an informed customer to achieve maximum customer confidence.

No company has been providing **Kaneka Q10®** branded CoQ10 longer than **Healthy Origins®** and no company ever will. We believe in the quality of our products and the value of our American made **Kaneka Q10®**.

In addition to our raw material quality, we formulate our CoQ10 in a base of pure cold-pressed olive oil for enhanced absorption.*

Healthy Origins® offers a broad range of CoQ10 strengths (100, 200, 300, 400 and 600 mg) and sizes (30, 60 and 150 softgels). All of our CoQ10 gels are fortified with an additional 5 percent CoQ10 raw material to ensure that every softgel is a minimum of 100 percent of label claim throughout the life of the product.

Kaneka Preferred:

Kaneka Corporation purchases only **Healthy Origins®** CoQ10 products for sale to their own employees in the USA and around the world.
