

Green Coffee Bean Extract

• 200 mg (60 & 120 Veggie Capsules)

• 400 mg (60 & 120 Veggie Capsules)

• Minimum 50% Chlorogenic Acid

• Contains a maximum of 3% caffeine

• To be used as part of your diet and exercise program to maintain a healthy weight.*

Soy Free

Non-GMO*

A vast number of people enjoy coffee on a frequent basis. Coffee is the second most consumed beverage in the world and preferred by more Americans than tea. While the flavor and the caffeine “kick” are most cited for this consumer preference; coffee beans are also high in useful acids and polyphenols. The roasting process eliminates most of these benefits from the bean. Healthy Origins® Green Coffee Bean Extract provides the body with valuable nutrients that are lost in the coffee roasting process.*

Healthy Origins® Green Coffee Bean Extract is a potent antioxidant which is standardized to contain a minimum of 50% Chlorogenic Acid, 65% polyphenols, and an ORAC value of 6,500 (umole TE/g).*
