

Probiotic

30 Billion CFU's

**Shelf
Stable**

Healthy Origins® Probiotic 30 Billion CFU's is a powerful blend of 8 friendly bacteria strains and 30 billion colony forming units (CFU's), which can help support a positive balance of micro flora in the GI tract. *

Your body contains billions of bacteria and other organisms that can be beneficial or detrimental to your health. Probiotics are live, friendly bacteria which are naturally present in your digestive tract. Supplementing with probiotics may help to maintain friendly bacteria colonies that can be depleted by stress, antibiotics, and gastrointestinal disturbances.*

Healthy Origins® Probiotic 30 Billion CFU's is a proprietary blend of 8 strains manufactured for Healthy Origins® by Danisco, USA. Healthy Origins® Probiotic 30 Billion CFU's bacteria strains survive harsh stomach acids to reach the intestinal tract where they exert their greatest benefits. Probiotic 30 Billion CFU's does not need to be enteric coated. This probiotic is stable while refrigerated or stored at normal room temperature. *

- 12 Billion CFU's - Lactobacillus Acidophilus (Strain La-14)
