

TEAVIGO GREEN TEA EXTRACT

your pure and natural choice

Healthy Origins® Teavigo® is a pure, natural and caffeine-free green tea extract made through a proprietary, patented production process that concentrates the benefits of fresh green tea leaves. *

For its pleasant taste and health benefits; green tea has been consumed by Asian countries for thousands of years. However, only recently have the proper testing methods been developed to determine what was providing these health benefits. It was determined that many of the health benefits associated with green tea consumption could be attributed to the high levels of catechins in the product. Catechins are natural phenols or flavonoids that provide a host of different benefits including high antioxidant activity. The primary catechin in green tea is epigallocatechin - 3 - gallate also known as EGCG.

Healthy Origins® Teavigo® is standardized to contain a minimum of 94% EGCG content while minimizing other impurities commonly found in green tea production.

- Caffeine - Free
- Minimum 94% EGCG to maximize healthful benefits*
- Water Soluble
- Free from pesticide or herbicide residues
- Non-GMO & Soy Free
