Healthy Origins® CoQ10 (Ubiquinone) is a naturally occurring substance that facilitates the production of cellular energy. In every cell in your body, there are small engines called mitochondria. Ninety-five percent of the total energy created within the body comes from these mitochondria, and none of it can take place without CoQ10. Our Natural (trans-isomer) CoQ10 is produced exclusively through a yeast fermentation process which is bio-identical to the CoQ10 produced in within the body.

Healthy Origins® CoQ10 is encapsulated in the USA using only Kaneka Q10® produced in Pasadena, TX.
